

WING SYSTEM

Wing consists of housing special profile Aluminium extrusion with die cast end pieces. Diffuser of anodized Aluminium is standard.

1. The **Wing** system can be surface mounted or installed on suspended ceilings.
2. Suspension may be by slim wires with micro adjustment, nickel plated chain or by slim tubular pipes.
3. The luminaire can be installed in straight lines or follow the designed contours. The up light component gives controlled ambient lighting. The down light provides general lighting or task lighting.
